Pride Quantum 610 Power Chair - Electric Wheelchairs

£2,799.00

Pride Quantum 610 Powerchair

The Pride Quantum 610 Power Chair combines a compact frame with a Mid-Wheel 6 design platform which provides users with increased stability, manoeuvrability and performance. The Mid Wheel 6 allows six wheels on the ground for maximum stability.

The independent active OMNI-Casters (nylon spherical shaped casters) raise and lower to compensate instantly for changes in the terrain and allow for smooth and stable transitions.

The Pride Quantum 610 Power Chair is the ultimate choice for users who demand maximum stability, tight manoeuvrability and all-round performance.

For your added peace of mind Pride Mobility Products Ltd provides a lifetime warranty on the frame; 2 year limited warranty on the drivetrain; 18-month warranty on the P&G Drives control system and a 12 month limited warranty on the electronics.

The Pride Quantum 610 Power Chair offers additional performance to the Jazzy 1103 Ultra through even greater stability courtesy of the latest ground-hugging suspension design and the more powerful 'Glide' motors. The picture depicts the powerchair with Tru-Comfort high back seating.

Â Pride Quantum 610 Power Chair Key Features:

Q6 Drive Technology VR2 Controller Compact size for superior handling in tight quarters ATX Suspension 21 stone weight capacity OMNI Casters front and rear prevent wheel snagging Easy front access to batteries Maximum speed variable up to 4 mph 10" pneumatic drive wheels (optional extra for solid puncture proof tyres) Up to 12 mile range per charge Footboard as standard Standard 50-amp VSI controller Glide Motors give more power and torque Available in choice of colours (red, blue, silver or black) Available seating: Synergy, TRU-Comfort, TRU-Balance
